5 Support

The HP Solution Business Program (SBP) support staff has established a procedure for submitting technical problems to the Incident Call Center (ICC). All SBP members must be registered with the Solution Programs Portal (SPP) to access technical support and other feedback or reporting activities.

Log on to the portal at <<http://www.hp.com/go/solutions>> to submit your issue to technical support. After you submit the issue, a report will be generated for the Incident Call Center. A Technical Support representative will be assigned to validate the incident and to work on a fix. HP will contact you for further information regarding the incident as quickly as possible.
